Our Product

Product Description

Residential Electronic Lock intelligent padlock fingerprint lock padlock

Product Description

No keys, your fingers unlock everything.

P3 is a portable smart fingerprint padlock with biometric recognition technology, it identifies users precisely and unlock in 0.5 seconds. The capacitive fingerprint identification system is more security than traditional machine keys and combination locks. Zinc alloy lock body, inbuilt battery for up to 6 months standby or 2,000 times unlocking per charge.

Fingerprint Padlock

The new P3 updated with watch-dog firmware so it can reboot system after every battery charge, to keep smart fingerprint recognition system running smoothly all the time.

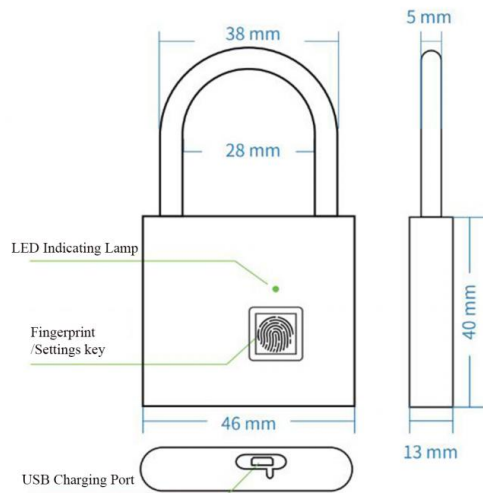

P3 fingerprint padlock is light weight and small size, best for indoor and outdoor anti-theft security and safety protection: small gate, student dormitory, warehouse, hospital, fence, garage, toolbox, shed, gym locker, employee locker, wardrobes, closet, cabinet, drawers, suitcase, handbag, bicycle, travel bag, luggage, laptop, backpack, golf bags, handbag, school locker and other assets that you want to protect.
