	humidity	10%~ 80%

This type of smart lock is particularly useful for travelers who want to ensure that their belongings are secure while they are on the go. It offers a convenient and secure way to access luggage and bags, without the need for traditional keys or combination locks. Additionally, the biometric technology used in this lock provides an added layer of protection against identity theft and other types of fraud.

Safe and reliable verification method

Fingerprint unlocking is more secure, and true fingerprint unlocking is 0.5 seconds.

Fingerprint recognition technology

Smart chip

Automatic learning and storage
