An App Controls
All Your Smart Home Devices

Various Access

There are Cell-phone, PIN code and mechanical key for your choice to unlock the lock.
(Smart phone control is optional.)

Auto Locking

Enable the auto lock function, it will lock automatically after 30 seconds by default. You also can set your auto lock time between 3 and 30 seconds if necessary.

Unique User Codes

Each member of your family can have their own 4-9 digits code that will be easy to remember. Program up to 49 codes for family and friends.

Scramble Code

Secure and reliable, when your friends or other people go home with you, Scramble code supports you enter random digits before or after the correct access code.

Mute Function

Turn on or turn off the beep sound is up to your decision. If you have little kids and old grandparents, you could mute it, providing a noiseless environment for them.

USB Battery Back-Up

The lock can be energized with a power backup when you forget to replace the batteries.

Lock/Unlock Button

Press Lock/Unlock button on the back body to lock/unlock the lock inside the room.

Optional Functions

(When connected with TUYA WiFi Module)

WiFi Module For IOT Use

Comes with the Connect Wi-Fi module (TUYA) so there's no additional hubs needed and it works off your home Wi-Fi

Fast Code Sharing

With Smart Digital Door Locks for Homes, You can share code with friends and guests valid for a few weeks, hours, or minutes, and revoke them whenever you need to. Never worry about lost, stolen or copied keys again.

Remote Control

Unlock and lock your door anywhere, never keep a visitor waiting outside the door anymore.

Locks Monitoring

View your lock history. See a list of users, their assigned codes, and each entry and exit time. Get real-time alerts when someone accesses your home.
