Color	Black
Suitable for	Widely Usage
Function	Multi-function
Door thickness	40-110mm
Unlock Method	Card+Code+Key+Fingerprint+smartPhone
Ways to Open	APP+Fingerprint
Usage	Household

Product Description

The Fingerprint Door Lock works by capturing an image of the user's fingerprint and storing it in the lock's memory. When the user wants to unlock the door, they place their finger on the keypad and wait for the lock to recognize their fingerprint. If the fingerprint matches the one stored in the lock's memory, the lock will open, and the user can enter their home or office.
