Product Description

The traditional mechanical locks used in hotels are being replaced by electronic locks that offer greater security and convenience. One such technology is the RFID (Radio-Frequency Identification) door lock, which is gaining popularity among hotels worldwide

**Functional Characteristics:**

Interface with most of the PMS system, Fidelio/ELA registered!

Made of 304 stainless steel, with a service life of up to ten years

After unlocking with a card, the sensor area will light up a blue light to indicate that the door lock is open.

Power: 4 PCS#5 AA Alkaline batteries: 14 months' duration

Door lock can store 830 unlocking records

Low battery automatic reminder

Using international 5 tongue structure, more secure against theft
