Product Description

Tuya TTLock App Intelligent Doorlock ELA E-30 Inteligentes Con Wifi Electric Digital Fingerprint Keyless Entry Smart Door Lock

Product Description

- 1.Low voltage prompt: After the voltage drops below 4.8V, an automatic alarm will sound every time the lock is unlocked. The alarm can be triggered 200 times for the rear door lock. If the number of times is exceeded, the lock will be unlocked for 5 seconds each time. It is necessary to replace the battery with a new one before unlocking
2. Password anti peeping function: When opening the door with a password, enter the password as follows: XXX password XXX; You can add some irrelevant codes before and after the password, and then press # to confirm. The password must be included in the input.
- 3.Unauthorized locking function: If unauthorized unlocking information is used and entered incorrectly more than 5 times within 5 minutes, the system will automatically enter an invalid input state (locked state), which lasts for 90 seconds.

parameters	parametervalue
