Our Product Introduction

Product Description

ELA Smart Wifi biometric smart lock Tuya smart home App Remote Control Anywhere 3D Face smart fingerprint locks E-H105

Product Description

1. Password peep function: When opening the door with a password, enter the password as follows: XXX password XXX, and add some irrelevant codes before and after the password, then press # to confirm. The password must be included in the entered content.

2. Password error restriction function: Input incorrect password more than 5 times in a row, lock the keyboard for 30 seconds.

3. Low battery warning: When the voltage drops below 4.8V, an automatic alarm will sound every time the door is unlocked. The alarm will sound and the rear door lock can be unlocked 200 times. If the number of times is exceeded, the unlocking will be delayed for 5 seconds each time.

FAQ

Q1. Is your company a factory or a trading company?
A: we are a factory mainly manufacturing smart locks.

Q2:What is your MOQ?
A: MOQ is 1 piece

Q3:Can it be customized / OEM / OEM acceptable?
A: Yes, we can help to print your logo on the lock and OEM/ODM service are welcome.

Q4:What's the delivery time?
A: Sample within 2 workdays, quantity order takes about 7~15 days.

Q5:What should do when battery is run out?
A: There has low battery alarm. You can still use the card open about200 times when it alarms. If it is out of power, you can use backup key to open the door or use power bank to charge it to open and then change the batteries then.

Q6:How can you make a difference from other suppliers?
A: We have enjoyed more than 15 years of rapid development together with our customers.We know our customers' need as well as themarket's developing trend.And we have our own prefessional installation team, fully understand any problems happens during the installation ofthe door lock,and we have the way to solve any problems that happens in the installation or use.
