

10°C To 50°C Face Recognition Door Lock Featuring WiFi Network Connectivity and False Acceptance Rate Below 0.1 Percent for Security

Our Product Introduction

for more products please visit us on smartdoor-lock.com

Basic Information

- Certification: CE/ISO9001
- Model Number: E-739
- Minimum Order Quantity: 500set
- Price: 99USD(EXW)
- Delivery Time: Delivery Time: 7 Days For Samples, 35-60 Days For Finished Products.
- Payment Terms: Payment:T/T , 30% Advance Payment, 70% Pay Before The Date Of Shipment.

Product Specification

- Battery Life: 6-12 Months
- Voltage: 3.7v~ 4.2v
- Panel: CNC Aluminum Alloy
- Operating Temperature: -10°C To 50°C
- Suitable Mortise: 6085/6068 And More
- System Selection: Tuya APP
- Network Connectivity: WiFi
- App: Tuya
- Highlight: **WiFi face recognition door lock, low false acceptance rate door lock, temperature resistant face recognition lock**

Product Description:

The Face Recognition Door Lock is an advanced security solution designed to provide both convenience and safety for your home or office. Utilizing cutting-edge facial recognition technology, this Camera Door Lock ensures that only authorized individuals can gain access, eliminating the need for traditional keys or passcodes. With its sleek design and robust functionality, the Face Recognition Door Lock is an ideal choice for anyone looking to upgrade their entryway security system.

One of the standout features of this Face Recognition Door Lock is its integration with the Tuya app. Through the app, users can easily manage access permissions, monitor entry logs, and receive real-time alerts directly on their smartphones. This seamless connectivity allows for remote control of the lock, enabling you to grant or restrict access from anywhere, at any time. The app interface is user-friendly and intuitive, making it simple for all family members or employees to use without hassle.

Constructed with a high-quality CNC aluminum alloy panel, the Camera Door Lock boasts not only aesthetic appeal but also exceptional durability. The aluminum alloy material is resistant to wear, corrosion, and harsh weather conditions, ensuring that the lock maintains its sleek appearance and reliable performance over time. This robust construction makes the lock suitable for both indoor and outdoor installations, providing versatile security options for various door types.

Battery life is a crucial consideration for any electronic lock, and the Face Recognition Door Lock excels in this area with an impressive battery longevity of 6 to 12 months. This extended battery life means you can enjoy uninterrupted security without frequent battery replacements. Additionally, the lock is designed to notify you well in advance when the battery is running low, so you can take timely action to maintain optimal performance. The efficient power management system ensures that the lock remains operational even during power outages.

The lock's dimensions measure 370mm in height, 76mm in width, and 27mm in thickness, making it a compact yet substantial addition to your door. Its size is thoughtfully designed to fit most standard doors without causing obstruction or requiring extensive modifications.

Despite its compact form, the lock houses advanced hardware that supports rapid facial recognition and secure locking mechanisms. Speed is a critical factor in the effectiveness of any biometric lock, and this Camera Door Lock delivers exceptional recognition speed of ≤0.5 seconds. This means that the door unlocks almost instantaneously upon recognizing a registered face, offering a smooth and efficient entry experience. The rapid recognition capability enhances convenience, especially in busy environments where multiple people need quick access without delays.

In summary, the Face Recognition Door Lock combines innovative technology, durable materials, and user-centric features to create a superior security device. Its integration with the Tuya app provides smart control and monitoring capabilities, while the CNC aluminum alloy panel ensures lasting strength and elegance. With a long-lasting battery life and ultra-fast recognition speed, this Camera Door Lock is engineered to meet the demands of modern security needs. Whether for residential or commercial use, it offers a reliable, stylish, and highly functional solution to protect your premises effectively.

Features:

- Product Name: Face Recognition Door Lock
- Suitable Mortise: 6085/6068 and more
- Voltage: 3.7v~4.2v
- False Acceptance Rate: <0.1%
- Recognition Speed: ≤0.5 seconds
- System Selection: Tuya APP
- High-precision camera for accurate face recognition
- Advanced Face Recognition Door Lock technology for enhanced security
- Easy integration with smart home systems via Tuya APP
- Compatible with various door types including 6085 and 6068 mortises
- Fast and reliable face recognition in less than 0.5 seconds
- Low false acceptance rate ensures maximum security
- Camera Door Lock design for seamless and secure access control

Technical Parameters:

Battery Life	6-12 Months
Suitable Mortise	6085/6068 And More
Finger Usage Angle	360° Seamless Fingerprint Semi-conductor
App	Tuya
Operating Temperature	-10°C To 50°C
Panel	CNC Aluminum Alloy
Recognition Technology	Infrared Face Recognition
Emergency Power Supply	Type-C/Rechargeable Lithium Battery
System Selection	Tuya APP
Network Connectivity	WiFi

Applications:

The E-739 Face Recognition Door Lock is an advanced security solution designed for a variety of application occasions and scenarios. With its cutting-edge Camera Door Lock technology, it offers a seamless and secure way to control access to residential, commercial, and industrial properties. The product features a robust CNC aluminum alloy panel and operates efficiently within a temperature range of -10°C to 50°C, making it suitable for both indoor and outdoor installations. This Camera Door Lock is ideal for smart homes, providing homeowners with convenient, keyless entry while ensuring the highest level of security. Thanks to its low False Acceptance Rate of less than 0.1%, unauthorized access is virtually eliminated. The device's WiFi network connectivity allows for remote monitoring and control, adding an extra layer of convenience and safety for busy families and tech-savvy users. In commercial settings, such as offices, hotels, and gated communities, the E-739 Camera Door Lock enhances security by allowing only authorized personnel to enter. Its fast and reliable face recognition system expedites access, improving workflow and reducing wait times. The lock's voltage range of 3.7v to 4.2v ensures stable performance, while its CE and ISO9001 certifications guarantee product quality and reliability. Due to its high-quality construction and advanced features, the E-739 is also suitable for sensitive areas like laboratories, data centers, and government buildings where strict access control is critical. The minimum order quantity of 500 sets and competitive pricing at 99 USD (EXW) make it an excellent choice for bulk purchases by security companies and distributors. Delivery times are efficient, with 7 days for samples and 35-60 days for finished products, allowing for timely deployment in large projects. Payment terms are flexible with T/T, requiring 30% advance payment and 70% payment before shipment, facilitating smooth transactions for buyers worldwide. Overall, the E-739 Camera Door Lock combines cutting-edge technology, durable materials, and practical features to meet the diverse security needs of modern environments.

Customization:

Our Face Recognition Door Lock model E-739 offers advanced Biometric Door Lock technology designed to make your life intelligent. Certified with CE and ISO9001, this product guarantees high quality and reliability for secure access control. The Face Recognition Door Lock operates efficiently within a voltage range of 3.7v to 4.2v and can function seamlessly in temperatures from -10°C to 50°C, ensuring consistent performance in various environments. Equipped with a 360° seamless fingerprint semiconductor sensor, this Biometric Door Lock provides accurate and quick fingerprint recognition for enhanced security. The battery life ranges from 6 to 12 months, minimizing the need for frequent recharges. We accept a minimum order quantity of 500 sets, with a competitive price of 99 USD (EXW) per unit. Samples can be delivered within 7 days, while finished products require 35 to 60 days for delivery. Payment terms include T/T with 30% advance payment and 70% balance payable before the shipment date, ensuring a smooth and secure transaction process. Customize your Face Recognition Door Lock to suit your specific needs and experience the perfect blend of security and convenience with our cutting-edge Biometric Door Lock solutions.

Support and Services:

Product Technical Support and Services for the Face Recognition Door Lock. Thank you for choosing our Face Recognition Door Lock. We are committed to providing you with comprehensive technical support and services to ensure optimal performance and satisfaction. **Installation Support:** Our team provides detailed installation guides and video tutorials to help you set up your door lock quickly and correctly. Please follow the instructions carefully to ensure proper functionality. **Software Updates:** We regularly release firmware updates to enhance security features and improve system stability. Make sure to check for updates through the companion app or our official website. **Troubleshooting Assistance:** If you encounter any issues such as recognition errors, connectivity problems, or lock malfunctions, consult the troubleshooting section in the user manual. For persistent problems, our technical support team is available to assist you. **Maintenance Tips:** To maintain optimal performance, keep the facial recognition sensor clean and free of obstructions. Avoid exposing the device to extreme weather conditions and perform regular checks on the lock mechanism. **Warranty Service:** Our Face Recognition Door Lock comes with a limited warranty covering manufacturing defects. Please refer to the warranty terms and conditions for detailed information. We are dedicated to ensuring your security and convenience with our Face Recognition Door Lock. For further assistance and detailed product information, please refer to the user manual provided with your device.
